PASTORS' MEETING

WAS HELD AT THE FIRST METH-
ODIST CHURCH DURING
THE FORENOON.

Had Fine Sermon at Tabernacle Last
Night—Subject, "The Most Im-
portant Question"—Notes
of the Revival.

NOTES.

That parade next Satur-
day night will test how
much your Christianity is
worth.

Quite a number of people
are coming from the sur-
rounding towns to spend
Thanksgiving at the taber-
nacle. There is some talk
of an excursion train from
Warsaw.

Tonight the doctor will
continue the subject, "The
Most Important Question."

So many things are said
at every service that many
feel they cannot afford to
miss even one.

At the service held last night at the tabernacle Dr. Torrey spoke on the subject, "The Most Important Question." In the afternoon an address was given on "The Personality of the Holy Spirit," which was most fruitful in blessing. In the world-wide evangelistic tour this address was always a great blessing, and those who heard it yesterday felt that it meant a crisis in their lives. We were glad to note the attendance of Mr. Young at both services yesterday, and it was very pleasing again to hear his fine tenor voice. Mr. Young has been in the hospital for repairs for several days, but now he feels all right.

It was reported last night that Mrs. Butler would arrive in the city this week, and we suspected as much, from the way Mr. Butler was smiling last night. It is said that when Mr. and Mrs. Butler and Mr. Young sing a trio it is the most beautiful combination of harmony. If it is equal to the type of singing heard from night to night it will be fine, but from all reports it will be better. Mr. Butler has only been married for a few months, hence we do not blame him for looking very longingly toward Springfield, Ill., which is Mrs. Butler's home.

A special service was held this morning at the First Methodist church for ministers only. Even reporters were denied admittance. It is not often that the ministers have a chance to be preached to, but Dr. Torrey has always been a great help to men in the ministry, and we are sure that this morning's service will tell in great results in the churches. Following is an outline of the sermon of last night.

Last Night's Sermon.

"What shall I do then with Jesus which is called Christ?"

You will remember that it was the Roman governor, Pilate, who asked this question, and he answered it wrongly, and brought eternal ruin and infamy down upon his own head. I trust that many in this great audience will answer it right tonight and bring to themselves eternal life, eternal joy and eternal glory.

I want to call your attention first of all to some of the things that depend on what we do with Jesus Christ.

In the first place our acceptance before God depends upon what we do with Jesus Christ. If you accept Jesus Christ God will accept you; if you reject Jesus Christ God will reject you. Our acceptance before God does not depend on the good works we perform. In order to be accepted before God on the ground of our good works, our good works must be perfect, and no man's works are perfect. Again, our acceptance before God does not depend on the character we have built up. In order to be accepted before God on the ground of character, our character must be absolutely holy, for God is an infinitely holy God; and there is no one who has not sinned. Our acceptance before God depends upon our acceptance of Him who lived a perfectly holy life Himself, and then died as the substitute for those who have led

unholy lives. If the vilest man or woman in Sedalia should come into this gathering tonight and should here and now accept Jesus as their sin-bearer and Savior, the moment they did it God would blot out every sin they ever committed, and their record would be as white in God's sight as that of the purest saint in heaven.

In the second place, our finding peace of conscience depends entirely on what we do with Jesus Christ. We can never get peace of conscience by good works; we can never get peace of conscience by prayers and penances. How many have tried to get peace that way and have failed! Is there some man or woman here to-night haunted with the memory of the evil you have done? Men and

MARRIED 55 YEARS

MR. AND MRS. WM. TRIPLETT
TODAY CELEBRATING THE
ANNIVERSARY.

NUPTIAL KNOT TIED IN KENTUCKY

Came to Missouri Fifty-Four Years
Ago and to Sedalia from Kan-
sas City Twenty Years Ago
—Honor Guests Today.

Mr. and Mrs. William Triplett, the former bookkeeper for the Sedalia Candy Co., are today celebrating their fifty-fifth wedding anniversary.

Mr. Triplett is 77 years of age and his wife is 76. Mr. Triplett was formerly Miss Sydney Preston. Both were born at Stithon, Ky., where they were united in marriage.

Fifty-four years ago they left the Blue Grass state and came to Missouri, and for the past twenty years have resided in Sedalia, coming here from Kansas City.

At the noon hour today Mr. and Mrs. Triplett were the honor guests at a sumptuous family dinner given at the home of their daughter, Mrs. George Hannefeld, 1810 South Ohio avenue. Among those present were their four children, grandchildren and friends.

Among those who attended the dinner were:

Mr. and Mrs. William Triplett, Mr. and Mrs. Gene Harris, Mr. and Mrs. H. G. Triplett and baby Lois, Mr. and Mrs. W. M. Harris, Mr. and Mrs. L. G. Fellers and son Raymond, Mr. and Mrs. J. B. Smith, Mr. and Mrs. George Hannefeld and babe Roland, Misses Vera Fellers, Ethel Harris, Nora Smith, Edith Triplett, Mae Hannefeld, Messrs. Ray and Elmer Harris, Murray Fellers, Ross Smith, William Triplett, Jr., Rucker Triplett and Raymond Hannefeld.

PAINTERS ARE AT WORK

Improvements Being Made at the
Katy Hospital Grounds.

Frank Vever, foreman of an M. K. & T. painting gang at Parsons, Kas., and a force of ten men, Monday began the work of repainting all of the buildings, barns and stables at the M. K. & T. hospital grounds and expect to complete the task within the next fortnight.

The buildings will be painted yellow, and will have dark trimmings. The improvement will necessitate the expenditure of a large sum of money. The Katy recently completed the laying of new granite sidewalks at the hospital grounds, and when all of the work is finished the place will have a very neat appearance.

MEETING NIGHT CHANGED

Hillcrest Junior Humane Society Met
Last Afternoon.

The members of the Hillcrest Junior Humane society held an interesting meeting, with a good attendance, at the home of Mrs. H. L. White, after school hours Monday afternoon.

By a vote of the members it was decided to change the meeting days from Saturday afternoon to the afternoon of the third Tuesday of each month.

There will be no meeting of the society next month, owing to the celebration of Christmas, but at the following meeting the annual election of officers will be held.

NO ADMITTANCE!

DEATH IN FLAMES

CONGRESSMAN DE ARMOND AND
LITTLE GRANDSON BURN-
ED TO DEATH.

NO TRACE OF THE BODIES FOUND

It Is Thought Both Victims Were In-
cinerated—Other Members of
the Family Escaped From
the Burning House.

Butler, Mo., Nov. 23.—Representative David A. DeArmond, one of the oldest democratic members of congress, and his grandson, Waddie, aged 6 years, were burned to death in a fire that destroyed the DeArmond home here early today.

The other members of the family escaped and it is believed that none is hurt.

Neither the body of Congressman DeArmond nor that of his young grandson has been recovered, and it is believed they were incinerated, as bones which are believed to be those of the congressman were found among the ruins by searchers this morning.

The other occupants of the house at the time of the fire, all of whom escaped, were Mrs. DeArmond and Mrs. Hattie Clark, her married daughter, and a hired girl.

The home of Congressman DeArmond was situated across the street from that of General James A. DeArmond, his son. When the fire was discovered the son started to rush into the burning home of his father in an attempt to save his father and the child, but was restrained by the younger Mrs. DeArmond and neighbors.

The cause of the fire is unknown. The house was a two-story one and it burned fiercely. Mrs. DeArmond, wife of the congressman, who escaped in her night clothes, was unhurt, but fainted as soon as she reached the ground, as did her daughter, Mrs. Clark.

When revived later Mrs. DeArmond became hysterical and it was some time before she could tell of what had happened.

Mrs. Clark was awakened by a cry, and going to the door of her

room on the second floor she saw smoke issuing from the front part of the house, where Congressman DeArmond and Waddie slept together.

"Get out of here," she heard Waddie cry.

"Never mind, son, I'll save you," the congressman answered.

These were the last words either of the victims uttered. A moment later the smoke increased in great volume and Mrs. Clark fled down stairs to the telephone and gave the alarm.

She hurried back to the room of her mother and with difficulty awakened her.

The two women had barely time to

KILLS SALOON MAN

M. A. SPANGLER WAS MURDERED
IN KANSAS CITY, MO., EARLY
THIS MORNING.

SHOT DOWN BEHIND HIS OWN BAR

He Drops Dead With Bullet Through
His Heart—Son Shot in Pistol
Duel With His Father's
Slayer Later.

Kansas City, Mo., Nov. 23.—While trying to grasp the revolver of one of two robbers who had attempted to rob his saloon at the northeast corner of Twentieth street and Grand avenue, at 12:45 this morning, M. A. Spangler, aged 59 years, was shot across the bar and instantly killed.

In a pistol duel with his father's murderer, Sam Spangler was shot through both arms, but not seriously.

He believes he shot the robber. The latter and his companion escaped.

The Spanglers were getting ready to close the saloon for the night. Sam Spangler had removed the cash from the register and was reading the totals from the detail adder, while the father was writing them on a card.

There were two visitors in the saloon when the robbers did the shooting, but they were covered with a revolver by one of the robbers, while the robber shot the Spanglers.

REPAIR THE ROAD

GEORGE GOULD MUST GET BUSY
ON THE MISSOURI PACIFIC
CENTRAL BRANCH.

GOV. STUBBS SENDS ULTIMATUM

Lines in Kansas Must Be Made Safe,
or Otherwise a Receiver Will
Be Asked—President Geo.
Gould Makes Reply.

Topeka, Kan., Nov. 23.—Unless the Gould interests begin improvements on the Missouri Pacific properties in Kansas, and more especially the Central branch, at once, Governor Walter Roscoe Stubbs will instruct the attorney general to put the road into the hands of a receiver.

"That road has got to be improved, and improved right away. If the Missouri Pacific doesn't do it the state of Kansas will," said the governor. "The state will have a receiver appointed, as it has a right to do, under a law passed last winter."

"Under this receivership we will put the Central branch in first class condition, give good service to those people out there, and, having done this, we will then turn it back to the Missouri Pacific. The time for temporizing and listening to silly excuses is past. That road must be fixed, and that right away."

"The Gould interests have taken every cent they could get from the Kansas properties to build the Western Pacific. In the meantime Kansas people have been enjoying poor service, unsafe roadbeds, old and dirty cars. The company has made all sorts of excuses and promises, but has done very little. We don't propose to stand it any longer."

Gould Promises to Improve.
Topeka, Kan., Nov. 23.—A vigorous telegram from Governor Stubbs, of Kansas, to George J. Gould, president of the Missouri Pacific system, threatening to institute receivership proceedings against the Central branch, a subsidiary road which traverses a rich farming country in this state, unless the line was improved speedily, was followed last night by a definite promise from Mr. Gould from New York to improve the

road. One hundred miles of 85-pound rails have been ordered for 1910.

Reeder Goes Back to School.

Harry C. Reeder, formerly of the civil engineering department of the Missouri Pacific, who has been taking the baths at Mt. Clemens, Mich., the past month for rheumatism, departed from there yesterday for Troy, New York, to join his wife and baby daughter, Elizabeth.

Mr. Reeder had for several months past been under the care of some of the best specialists both east and west, but not one of them gave him even temporary relief.

The baths at Mt. Clemens, however, effected a cure, and Mr. Reeder now returns to Troy to resume his studies at the Rensselaer Polytechnic institute, this being his third year of a four year course.

CLARDY GETS JOB

SUCCEEDS ALEX. G. COCHRAN AS
HEAD OF MISSOURI PACIFIC
LEGAL DEPARTMENT.

APPOINTMENT IS EFFECTIVE NOW

Becomes Vice President and General
Solicitor—For Five Terms Rep-
resentative in Congress
From Missouri.

St. Louis, Mo., Nov. 23.—A circular was issued yesterday from the Missouri Pacific executive offices announcing that Mr. Martin L. Clardy, general attorney for Missouri and Illinois, is appointed vice president and general solicitor, effective at once, with headquarters in St. Louis.

The circular is signed by Vice President C. S. Clarke and is approved by President George Gould. Mr. Clardy succeeds Mr. Alex. G. Cochran, who recently resigned after twenty-two years' service.

Mr. Clardy has been connected with the legal department of the Gould lines, the Missouri Pacific-Iron Mountain, for seventeen years, and has been general attorney for fifteen and one-half years.

Prior thereto he served five consecutive terms in congress. His appointment will give general satisfaction in railroad and legal circles throughout the west and southwest.

HAVE CLASS INITIATION

Russell Camp Made Partial Arrange-
ments Last Night.

The members of Russell camp No. 2065, Modern Woodmen of America, at Monday night's meeting, made preliminary arrangements for a class initiation and supper to be given early in December.

On that occasion Head Consul Talbott, of Rock Island, Ill., and A. R. Smith, state director, of St. Louis, will be present.

Invitations will be extended to every member of the order in Pettis county to attend.

The exact date for the event is undecided by reason of the fact that it is not known definitely when the supreme officers will be able to be here.

The "blowout" will be given at one of the local theaters, according to present arrangements, and efforts will be made to secure one of the largest classes in the history of the camp for initiatory purposes.

GEORGE M'KEE RESIGNS

He Retires From the Mobile & Ohio
Railway.

A private letter received in Sedalia yesterday stated that George McKee, a former Sedalian, had resigned as general superintendent of motive power and equipment on the Mobile & Ohio railroad, with headquarters at both St. Louis and Mobile, Ala., but the missive gave no intimation as to his future plans.

Mr. McKee is one of the best known and most successful men in his line in the south or west. He has been with the Mobile & Ohio road a number of years, and was held in the highest possible esteem by the "powders" on the road and also by the employees.

Years ago Mr. McKee ran an engine out of Sedalia on the M. K. & T., and he has a legion of friends here whose best wishes will always be with him. He is now in the east where it may.

TO BE MARRIED TONIGHT

Mr. Wm. J. Freeland and Miss Bertha
A. Thompson By Fr. Neiberg.

Miss Bertha A. Thompson, of 912
West Fifth street, will be married to
Mr. W. J. Freeland this evening at
7 o'clock at the parochial residence
Thompson, and has been a communicant
at Sacred Heart church.

Mr. Albert Thompson and Miss
Josie Esser will act as witnesses.
The bride-to-be is a popular young
lady who since last May has made
her home with her brother, J. P.
been a communicant at Sacred Heart
church.

The prospective groom is a boiler-
maker at the Missouri Pacific shops,
and, like his intended, has a legion of
friends.

In anticipation of the event the
Democrat-Sentinel extends its con-
gratulations to the happy couple.

CHARLES RICKMAN DEAD

Man 70 Years Old Died at the Home
of His Son.

Charles Rickman, aged 70, father
of H. L. Rickman, a Missouri Pacific
car inspector, died from general de-
bility at the home of his son, H. L.
Rickman, 307 East Booneville street,
at 10:10 o'clock this morning, fol-
lowing a brief illness.

Deceased was a member of the
Southern Methodist church, but held
membership in no lodge or society.
His wife died a number of years ago,
and the son is the only immediate
relative who survives.

ruption in which "big business" and
big politicians are involved though
this country has become in recent
years, the people stand astounded at
the magnitude of the sugar trust's
stealings, as recently disclosed.For more than twenty years, it ap-
pears, this monopoly has been de-
frauding the government, with the
knowledge and connivance of govern-
ment officials, until, it is estimated,
more than \$30,000,000 has been filch-
ed from the government treasury
through false weighing of imports
and underpaying of customs duties.And it has remained for private in-
dividuals to make the exposures
which have forced the government,
with apparent reluctance, to take cog-
nizance of the great frauds that have
been perpetrated. Ten years ago Wil-
bur F. Wakeman, former appraiser of
the port of New York, declares he
laid proofs of sugar trust bribery of
customs officers before Lyman J.
Clage, secretary of the treasury under
McKinley. According to Wakeman,
Mr. Clage said:"I don't believe that my good
friend Mr. Havemeyer knows any-
thing about this matter, and I want
you to give him my compliments and
present the statement which you
have presented to me and tell him if
anything like this exists it must be
stopped."That is as far as the government
went in the matter, and the weigh-
ing frauds went merrily on.
The harmless trust buster, Mr.
Roosevelt, showed similar lack of in-
terest. Proofs were presented to him
and to his attorney general, Mr.
Bonaparte, of the sugar trust's viola-
tions of the Sherman anti-trust law.
Mr. Roosevelt was too busy making
grandiloquent declarations of his in-
tentions to "shackle cunning" and
"curb rapacity" to pay any attention
to concrete examples of violations of
the law, and his attorney general in-
dicated by his lack of attention to thematter the possession of a straight
tip direct from the throne that he
had better keep his fingers out of the
sugar bowl.When Mr. Gage's "good friend,"
Mr. Havemeyer, declared many years
ago that "the protective tariff is the
mother of the trusts" he told a truth
that has never successfully been con-
verted. He might have gone fur-
ther and added that the protective
tariff is the father of all the corrup-
tion, bribery and fraud that have en-
sued in the relations between the
beneficiaries of the tariff and repre-
sentatives of the government.The sugar trust has never lacked
for friends and emissaries in any
branch of the government service. In
congress it has ever had at its beck
and call a motley array of faithful
servants, headed by the ever watch-
ful Aldrich. As the cases of Gage
and Bonaparte show, it has not lack-
ed for support in the cabinets of re-
cent administrations, and, as indicat-
ed by Roosevelt's indifference to its
individual crimes while thundering in
the abstract against corporate wrong
doing, even presidents have had as
tismatism where it was concerned.It is a shameful mess. Enough
has been disclosed to show that the
government has been an accessory to
the crimes committed for years. The
revelations are such as to demand a
congressional investigation. If there
be enough members of the national
legislature untouched by the sticky
hands of the sugar trust "influence"
to institute an inquiry."Uncle Joe" Cannon is putting a
pretty severe strain on the credulity
of the public when he asks it to be-
lieve that a delegation of newspaper
publishers called on him and publicly
offered to support his presidential as-
pirations if he would secure a reduc-
tion of the duty on paper. But it is
of little consequence whether the
story is true or not, save as it af-
fects the handful of individuals who
constituted the alleged delegation,
and who, of course, could commit no-
body but themselves. The real issue
is that Uncle Joe and his party
friends made the duty \$3.75 a ton, af-
ter a committee of his own selection
had made a thorough investigation
and reported that a duty of \$2 would
suffice for all purposes of protection.
The additional \$1.75 is "velvet" for
the paper trust and unwarranted
hardship for the paper consumers.
And this is only one of the many out-
rages for which the people are hold-
ing Uncle Joe and others of his ilk
to a reckoning.Aldrich closes his fruitless trip for
laying the foundation for a new Unit-
ed States bank by warning the coun-
try against the ghost of Andrew Jack-
son, who killed the old bank. Never-
theless, Jackson's ghost, like Ban-
quo's ghost, will continue to haunt
Aldrich, both awake and asleep, as
long as he shall attempt to revive
the monster which Jefferson denounc-
ed and Jackson destroyed. A much
greater man than Aldrich met his
political death by a similar attemptNevertheless, we have not heard of

women, there is a way to find peace,
only one way—by simple faith in a
Christ that was crucified on the Cross
of Calvary for your sin.In the third place, finding deep and
abiding joy depends on what we do
with Jesus Christ. A man can never
get joy through the accumulation of
wealth. Men have tried it, but no
one has ever succeeded. A man can-
not get joy through seeking the
world's honors; many have tried it,
but no one has succeeded. A man
cannot get joy through indulging in
the world's pleasures; millions have
tried it, but no one has ever succeed-
ed. But, friends, the wretchedest
heart in this world can find joy to-
night through believing in Christ cruci-
fied and risen.In the fourth place, our obtaining
eternal life depends entirely on what
we do with Jesus Christ. We read in
I John 5:11-12, "God hath given to us
eternal life, and this life is in His
Son. He that hath the Son hath life;
and he that hath not the Son of God
hath not life." What strange ideas
even Christian people have about how
to obtain eternal life. If I could
come to some of you tonight and say,
"How do you think people get eter-
nal life?" some of you would answer
something like this: "If a man leads
a good life, and fights against sin
and overcomes it, and is faithful in
his service to God, at the end of a life
of struggling and victory and service
perhaps God will give him eternal
life." Thank God, that is not the doc-
trine of that Book. The doctrine of
that Book is that when God sent His
Son Jesus Christ down to this world
He sent eternal life in Him, and themoment you take Christ you have the
eternal life that is in Him; and if the
worst outcast in Sedalia should
here and now take Christ, the mo-
ment he did it he would have eternal
life. Will you take Him?**"HOME OF SAVINGS"**A TRUST COMPANY never

It wouldn't take long to number the
hairs in the heads of some people,
the reason being they haven't many
to number. In most instances, how-
ever, the fault is their own. A germ
at the root soon plays havoc with the
most luxuriant growth and causes it
to fade and fall out. A remedy for
this has recently been discovered,
called Newbro's Herpicide, that acts

W. E. Bard Drug Co., of this town, says that he has found indisputable proof that eczema can be cured—not in one or two cases, but in scores of cases which he has studied.

They would, of course, not think of making such a recommendation to their neighbors and patrons, were it not that their years and years of success with D. D. D. Prescription enables them to speak of this remedy with confidence. It is a gentle, soothing wash with the mild oil of wintergreen as a base. All the cures seem to be permanent, at any rate, a trial bottle at 25 cents will take away the itch at once—instantly. We are sure of this.

MURDER MYSTERY

THE POLICE OF SAN ANTONIO, TEXAS, ARE WRESTLING WITH THE CASE.

NAT B. JONES, A LAWYER, IS KILLED

His Wife is Charged With the Crime and Pleads Self-Defense—The Dead Man Carried Large Amount of Insurance.

San Antonio, Texas, Nov. 23.—Circumstances of peculiar interest surround the killing of Nat B. Jones, a prominent lawyer of this city. His wife, Fay Heard Jones, is in custody, charged with the murder, and pleads self-defense.

Jones was killed at a local fashionable boarding house in what has been described as a particularly cold-blooded manner. Four shots were fired at the man and when other occupants of the house rushed in only his wife was seen. Jones rolled on the floor in convulsions and died shortly after his transfer to a hospital.

The only statement made so far by the woman is that her husband had threatened her with a razor, and that she had fired the shots to protect her own life. Around this statement the mystery of the case circles.

The fact that a large leather-cushioned chair was covered with blood and that two of the bullets had penetrated the back of the chair indicates definitely that the victim was sitting in the chair at the time he was shot. It is not thought that the man could have threatened the woman effectively in that position, and that had he done so the woman could have made her escape through the door.

The razor was found under the body of the man and its case under the bed. As yet it is not definitely known which of the shots penetrating the back of the chair proved fatal to the man. Two of the wounds inflicted were not such as to render him helpless, but the others were of that nature.

The question now is, was the man shot before he sat down in the chair to receive his guests there, or was he sitting down when the fusillade began? It is not improbable that the victim fell into the chair after one or even two shots, and that in doing this dropped the razor where it was found. There is a theory, however, that he would have been hardly able to gain the chair in that case, for the succession of shots is alleged to have been too rapid, the gun used being an automatic.

All in all, the case is one of the most mystifying that has come to the attention of the local authorities. So far as the facts are known, the man must have been sitting in the chair when the woman began to fire at him.

The most peculiar circumstance is the fact that finger marks on the blade of the razor are not those of the murdered man. When the razor was found Chief of Police Van Riper was careful to close it without touching the blade. The razor, instead of having been opened by the extension of the back of the blade, as is invariably done by men familiar with its use, had been opened like a pocket knife.

On one side the imprint of the tip of a thumb is plainly visible, and on the other the mark of a finger tip appears. Impressions made of the fingers of the dead man are said not to correspond with the lines left on the razor.

What is so unusual is the fact that the razor is one used as a rule by barbers only, being of the "Barbers' Choice" brand. The appearance of its edge shows that it had been handled by a professional barber. At the store at which the razor had been bought it was said that both Mr. Jones and his wife dealt there considerably, but that neither of them had ever bought a razor of that kind.

Another feature of peculiar interest is that efforts had been made to deface the revolver with which the deed was committed. The number of the weapon had been carefully erased with a file, and the initials of the dead man had been scratched into the metal with a fine pointed tool, either a needle or a fine pointed file.

Another odd factor is that the "J" of the man's name had been reversed, something Mr. Jones would hardly do had he scratched the letters in himself, being a man of fine education and unusual intelligence. In the opinion of many the number of the gun was erased only a few days prior to the deed, for the filing has every appearance of newness.

The case is admitted to be a very baffling one and speaks of careful and deliberate preparation, either on the part of the woman or an accomplice, should her claim of self-defense not be sustained.

Mr. Jones left life insurances in the amount of \$35,000 and a little property, most of the former taken out in favor of his wife. He was a lawyer with a large clientele, and was well known all over the city. A little boy survives him. Both he and his wife had obtained divorces from other matrimonial partners.

OLD LANDMARK TO GO

Missouri Supreme Court Building Soon to Be No More.

Jefferson City, Mo., Nov. 23.—One of the old landmarks in Jefferson City, the supreme court building, will soon be no more. The building will be completely separated from the addition which was constructed about eighteen years ago. Part of the old circular court room will be torn away. Years ago the supreme court held its sessions in this old room, which the ravages of time have sadly marred.

Senator Vest, Col. James O. Broadhead, Judge George A. Medill, Judge Francis L. Black and many others like them have argued famous cases in the old room. It was in this room that Judge McFarlane handed down the opinion that the capital removal amendment should be submitted to the people. For some time the room has been used as a part of the offices of the state library commission.

LOVE LETTER IN SAUSAGE

Written by Katie Sheehan and Answered by R. J. Halley.

Keytesville, Mo., Nov. 23.—Love will find its way all right, even if a can of sausage has to be used to help the good work along.

R. J. Halley, one of Keytesville's hustling grocers, was agreeably surprised to find on opening a can of nicely packed sausage a slip of paper on which was written a request for the finder to write real soon and signed by Miss Katie Sheehan, of Kansas City, Kan.

Halley is no piker and has written the young lady all about it. The outcome probably depends on how long that can of sausage had remained unopened. If Katie is already a wife and mother it is not likely there will be anything doing for the grocer, but if not there is no telling what may happen.

NO MORE GRAY HAIRS

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made and used a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair, and are fast following suit. The present generation has the advantage of the past in that it can get a ready to use preparation called Wyeth's Sage and Sulphur. As a scalp tonic and color restorer, this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers and it can be bought for 50 cents and \$1 a bottle at almost any first-class drug store, or will be sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

Europe's Highest Village.

"The highest village in Europe" is the inscription on a post card which shows a group of wooden cottages on a bleak hill, with no sign of vegetation in sight and having as a background a range of ice-covered mountains. The name of the place is Cumeax in the Canton Wallis. It lies 2,047 meters above the sea level, "where Monte Rosa raises its gigantic head into the clouds." The village consists of four families, and the latest census gives it a population of 26. "The storms of spring and fall and the snows of the winter months," says the sender of the card, "make life a dreary one, and still the people look happy, and doubtless they are so."

THIS IS GENERAL REPORT MADE

However, the Cranberry Crop is Nearly Twice As Large As That of Last Year, So We May Have the "Sauce."

New York, Nov. 23.—Dealers say many New Yorkers will be deprived of their customary turkey feast day after tomorrow, unless the supply of the birds exceeds the present expectation.

It is expected that choice turkeys will be selling at from 25 to 30 cents a pound tomorrow, when the rush begins at the markets. Unfavorable weather conditions are said to account for a shortage in the turkey crop all over the country. There is consolation in the statement that cranberries are to be plentiful and cheap.

In the principal turkey centers, which are Vermont, Maryland and Virginia, the supply has fallen off thirty or forty per cent, according to local dealers.

In addition, the weather has been so warm that the meat has not developed the way it should, and is still soft and dry in a great number of the birds which have survived the delicate age and have grown to their full size.

In Indiana and Illinois, where a great many turkeys are raised, the weather has been too wet for the best results. While the fowls from this region are not equal in quality to those of Vermont and the southern states, the shortage in the general supply this year will enable the western raisers to obtain the higher price.

The Thanksgiving market is always flooded with large numbers of turkeys of inferior quality, and these will probably sell for a somewhat lower figure, but the choice birds will nowhere be obtainable for less than 28 cents at retail.

This year's cranberry crop is said to be nearly twice as large as that of last year, and low prices are prevailing. Attempts have been made by the growers to find a foreign market, but with little success.

In London the demand for cranberries is confined almost exclusively to the American colony. Many years ago Sir Joseph Banks cultivated the berry in England, and at one time Lincolnshire and Norfolk supplied all that England needed for tarts, pies and an acid summer beverage that had some popularity there. Nowadays, outside of the American berries, confessedly the best, England imports berries from Sweden and Russia.

The French are reported to regard the eating of cranberry sauce with fowl or game as "a mild form of barbarism."

The German people are more appreciative, but their government has prevented them from indulging in "a mild form of barbarism" by exacting a tariff duty of \$1.19 on each 200 pounds, whereas the fruits of other countries are admitted free.

Pleasure in Work Sure Sign.
You may know that you have found your place, if your work is a pleasure to you. If you long for the time to quit, you are on the wrong job. If you go to work with no more delight than you left it, the job belongs to some other man. When you have found your true calling you will not find nature putting barriers in your path of progress.

President Defies His Critics.

Washington, Nov. 23.—In a letter to William Dudley Foulke, of Richmond, Ind., the civil service reformer, who was so conspicuous in Theodore Roosevelt's train, President Taft defies his critics in the middle west.

He "stands pat" on his Winona speech, upholds the Payne tariff, stands by "Uncle Joe" Cannon and says:

"I expect to occupy the president's chair for three more years, and during that time I intend to be president of the United States."

DARES DEATH FOR HONOR

Girl, Assailed by Four Men, Leaps 30 Feet to Ground.

New York, Nov. 23.—Waylaid in a deserted street within a few blocks of her home in Paterson, N. J., Marie Sullivan, a pretty 15-year-old girl, was gagged and carried into a fire ruined building at No. 593 River street, where she was attacked by four young men Sunday night. She escaped by jumping thirty feet from a window and possibly was fatally injured.

Topeka Girl Overcome by Gas.

Topeka, Kas., Nov. 23.—Miss Nellie Gruber, a pretty and popular Topeka girl, started to take a bath Sunday night.

The fumes from a faulty gas heater overcame her, and she was found unconscious in the tub, with the water within a half inch of her mouth. It took a physician some time to restore her.

If you don't say it's the best ever—our annual display for the holidays of 1909—will not ask you to come again. But you're urged to come this week Friday and Saturday.—West's Book Shop.

Belgian Horse Fairs.

Horse fairs, held almost continuously, have helped to make Belgium the greatest horse-breeding country of its size in the world. The fairs are largely attended by foreign buyers, especially Germans, who purchase 25,000 horses a year at these exhibitions. It is estimated that there are now 300,000 horses in Belgium, a country not quite as large as the state of Maryland, which has just about half that number of horses.

QUEENSLAND'S WATER TREES
Wise Provision of Nature That Is One of the Curiosities of the Region.

One of the curiosities in natural history in the colony of Queensland is the provision by nature of a supply of water in the roots of certain trees. On these roots the aborigines formerly depended for their water for several months of the year.

There are several kinds of trees in Queensland from which water can be obtained, including three species of eucalyptus, and the kurrajong. The eucalypti consists of a gum, which is the largest of the back country trees, a box and mallee. The first named is the most preferred, as yielding the greatest quantity. This tree resembles the red gum in appearance, the leaves being a little narrower and of a silvery color. It grows chiefly on sandy or light loamy soil and throw out numerous lateral roots at a depth of about nine inches from the surface of the ground. The position of these roots was ascertained by the blacks by repeatedly jabbing the points of a spear or sharpened stick in the soft earth at a distance of about six or eight feet from the trunk of the tree. The soil was then removed with a wooden shovel for some 20 feet or more and the root cut off at either end. This was then cut up into lengths of about 18 inches, the bark knocked off and the lengths stood on end in some receptacle to contain water. In many cases the blacks used a bag made of the entire skin of the male wallaby. As soon as all these pieces were placed on end the operator, beginning with the first placed, put the end in his mouth, and by a vigorous puff expelled the remaining water. The size of the roots chosen was, with the bark on, about the thickness of a man's wrist. The larger ones being more woody and less porous, contain little or no water. The water is beautifully clear, cool, and free from any unpleasant taste or smell.

Do You Feel This Way?

Do you feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor appetite, and lay awake at nights unable to sleep? Are your nerves all gone, and your stomach too? Has ambition to forge ahead in the world left you? If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your lazy liver to work. It will set things right in your stomach, and your appetite will come back. It will purify your blood. If there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about a cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose advice is given free to all who wish to write him. Great success has come from his wide experience and varied practice. Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good." Dr. Pierce's medicines are of known composition. BOTTLE GONE ATE HEARTILY

Miss C. L. Fuquay, of Springfield, Tenn., Tells Interesting Story About Her Cure By Cardui.

Springfield, Tenn.—"I was without either energy or appetite," writes Miss C. L. Fuquay, of this place, "and my friends fussed at me for my stupidity.

"I grew worse and took to my bed and was under a physician's treatment for over a month without relief. "At last my mother bought me a bottle of Cardui, and before the bottle was gone I was eating heartily.

"I have now taken four bottles and am O. K. and Cardui is what brought me relief. I hope everybody who suffers as I did will try Cardui."

You are safe in taking Cardui, because it is a gentle, harmless, vegetable tonic, that can do you nothing but good.

Prepared from herbal ingredients, with a specific, curative effect, on the womanly organs, Cardui, the woman's tonic, is the best medicine that you can take.

Your druggist keeps it. Get a bottle from him today.

NOTE—The Cardui Home Treatment for Women, consists of Cardui (\$1), Thedford's Black-Draught (25c), or Velvo (50c), for the liver, and Cardui Antiseptic (50c). These remedies may be taken singly, by themselves, if desired, or three together, as a complete treatment for women's ills. SHOW OF POULTRY

CENTRAL MISSOURI ASSOCIATION MEETS AT MARSHALL NEXT FOUR DAYS.

ATTENDANCE IS SAID TO BE GOOD

The Northwest Association Opened at Palmyra This Morning—A Very Fine Lot of Birds On Exhibition.

Marshall, Mo., Nov. 23.—This is a good day for chickens in Marshall, as there are probably more of the feathered fowls within the city limits than ever before in its history. Such a noteworthy event is caused by the opening of the tenth annual exhibition of the Central Missouri Poultry association.

The Central association is one of the liveliest organizations in the state, and has been accomplishing great things in the way of advancing the chicken industry. Specimens on exhibition at the show demonstrate what has been done, as there are chickens here that students of chickenology pronounce about as near perfect as can be produced. The attendance at the show is good. It will close Friday.

"The importance of the poultry industry in Missouri is not appreciated by many people," said a prominent chicken fancier while speaking in regard to the matter.

"During 1908, for instance, 146,850.857 dozen of eggs were marketed from the state. These eggs sold for \$22,027,828. Poultry, live and dressed, sold for nearly the same sum as the eggs, \$22,095,658.

"When poultry and poultry products are added together they are more than double in value the surplus wheat and are exceeded only by corn.

"A remarkable thing is that during the last nine years the surplus poultry and poultry products sold have grown from \$12,843,011."

The Northeast Association.

Palmyra, Mo., Nov. 23.—The annual chicken show under the auspices of the Northeast Missouri Poultry association opened this morning with a fine lot of birds on exhibition.

A number of prominent chicken fanciers are members of the association and are on hand with choice specimens from their flocks. Senator H. Clay Heather is one of the enthusiastic members of the organization.

Plants never freeze in a home heated by COLE'S HOT BLAST

You know where plants never freeze it doesn't get cold.

Cole's Hot Blast maintains a continuous fire; it will hold fire over night with a half full of coal. With this stove you need only open a draft in the morning and the rooms are quickly heated with fuel put in the evening before. No other stove does this.

Cole's Hot Blast stove saves half the soft coal or slack or lignite, because it burns the gas as it rises from coal, and as gas is half the fuel in coal, Cole's Hot Blast makes soft coal, slack or lignite go twice as far as any ordinary stove.

The unequalled fuel saving, the heat radiation, the even temperature, the holding of fire, are all the result of the patented features in the construction of this remarkable stove which cannot be used in making any other stove; and to the Patented Hot Blast draft which burns the wasting gases in the fuel. Soft coal, as you know, is half gas. The makeup of the stove is interesting. Read:

In an ordinary stove the gas (half the heat value) arises from the coal as the coal burns and the gas goes right on up the chimney. In Cole's Hot Blast the hot blast draft on top of the fire burns the coal from the top—burns the gas. Makes the coal last twice as long.

Note this—you cannot shut off or control ordinary stoves promptly because, though you do shut the air out of the main draft, air is coming in through dozens of small cracks, giving the fire a draft which is in no way controlled. You notice this when a stove keeps on heating long after you have shut it off.

The patented construction of the Original Hot Blast stove enables the manufacturer to guarantee it to remain always air-tight.

Remember, that is part of the guarantee. You have perfect control over the fire at all times. Thus the coal doesn't waste away—and will hold fire so well that you don't have to kindle a fire in the morning as with other stoves, but actually dress and eat breakfast in warm rooms, warmed by the fuel put in the night before.

Lots of satisfaction, isn't it? Don't expose the children to cold. No need of losing your plants! Don't kindle fires daily.

Call and let us show you.

The Pastor of a Wealthy Church Gave Advice to the Rich.

New York, Nov. 23.—The pastor of the well-to-do Collegiate Baptist Church of the Covenant astonished his comfortable congregation Sunday night by sayings concerning what rich men should do.

"The intellectual gymnastics," said the Rev. Dr. Haywood, "of the average New York preacher when confronted with the text, 'It is easier for a camel to go through the eye of a needle than for a rich man to enter the kingdom of heaven,' are pitiable.

PAY BETTER SALARIES

Retiring Treasurer Treat Says Its Due Employers.

Washington, Nov. 23.—Higher salaries for the thousands of clerks grown gray in the government service are urged upon congress in the annual report of the retiring United States Treasurer Charles H. Treat, made public by Secretary MacVeagh yesterday.

Taking much the same view that several cabinet officers and many bureau chiefs have formed, Mr. Treat points out that with the higher cost of living, the salaries paid by the government are grossly inadequate, remaining stationary while daily wages have been increased in almost every line of industry. He recommends a retirement.

S.S.S. THE REMEDY FOR SORES AND ULCERS

There is but one way to cure an old sore or chronic ulcer, and that is to remove the cause that produces and keeps it open. No matter where located, any sore that remains until it becomes chronic does so because of impure blood; the circulation constantly discharges its polluted matter into the place and it is impossible for nature to heal the sore. S.S.S. heals sores and ulcers by purifying the blood. It removes every trace of taint or impurity from the circulation, and thus completely does away with the cause. No local application reaches below the infected flesh at the spot, and for this reason can have no curative effect on a sore or ulcer; while such treatment is being used alone, the germs and impurities are constantly increasing in the blood and the sore is bound to grow worse. When S.S.S. has cleansed the blood and enriched and purified the circulation the place begins to take on a more healthy appearance, the different symptoms show improvement, the flesh around the ulcer gets firm, new skin and tissues are formed, and aided by pure, rich blood, nature provides a perfect and lasting cure. Under the tonic and blood-purifying effects of S.S.S., the system is built up, and those whose health has been impaired by the drain and worry of an old sore will be greatly benefited by its use. It was in compliment to the members of the Sans Gene club and their husbands and sweethearts, and it was a late hour when the affair was concluded, all pronouncing the event a grand success.

In the distribution of prizes following the playing of euchre, Melvin Ilgenfritz won the gentlemen's prize, a beautiful brass ash tray and cigar holder, while Mrs. I. D. Turner, wife of an M. K. & T. conductor, won the ladies' prize, a pretty brass vase.

Late in the evening refreshments of chicken salad, potato chips, sweet pickles, Dixie biscuits and orange ice were served.

Mrs. Frank Monroe, Mrs. Harvey MacGugin and Miss Lou Menefee assisted in entertaining.

Before taking their departure the guests expressed the wish that Mr. and Mrs. Menefee might live to celebrate many more happy wedding anniversaries.

SALOON THOUGHT NO. 248.

It Looks Gloomy.

Bonfort's Wine and Spirit Circular, the leading liquor magazine, says:

"With the loss of Tennessee we can now foot up six states that have outlawed our business during the past fifteen or eighteen months—the other states being Oklahoma, Georgia, Alabama, Mississippi and North Carolina, and we have prohibition contests facing us in Arkansas, Texas, West Virginia and perhaps in Kentucky.

"In Ohio some sixty-one counties have voted prohibition since September 1, 1908, and all counties in Indiana that have voted under the county unit law have gone against the saloon by large majorities. There is grave danger of the states of Ohio, Indiana and Michigan being lost entirely, and there certainly is danger, and grave danger, that West Virginia, Virginia, Arkansas and Texas will go the same way.

"The saloon business in this country is doomed unless the laws are so altered as to rid the trade of the disreputable element and insure that it will be conducted in the future with decency and with entire regard for the expressed wishes of the people."

NEWS OF THE RAIL

WILL B. F. YOAKUM GIVE UP HIS INTERESTS IN THE M. K. & T. RAILWAY?

COACH, CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources for the Benefit of Democrat-Sentinel Readers.

There was no meeting held in New York Monday of the Frisco board for the purpose of organization and the election of a president to succeed A. J. Davidson.

The latter's resignation has been in the hands of the board for about a week, and although it is known that it will be accepted and Second Vice President C. R. Gray chosen in his stead, action has been deferred, it has been asserted in some quarters, until the reported differences among the members of the Frisco-Rock Island board have been adjusted.

In this connection there was an interesting report in circulation in the financial district in New York Monday, to the effect that the dissensions said to have arisen in the Rock Island management as the result of the acquirement by B. F. Yoakum of an interest with Edwin Hawley in the Missouri, Kansas & Texas, followed by his election as a director, were in a fair way of settlement, if they had not already been settled.

This had been brought about, according to the story, by the decision of the "Katy," which, of course, was taken to mean that his relations with Mr. Hawley, so far as they related to the latter's lines, would cease.

Whether this alleged purpose of Mr. Yoakum was the result of conferences which have been held at his Broadway office and elsewhere, could not be learned, but that was the view generally taken by those who credited the report.

It has been understood that Mr. Yoakum was determined to maintain the attitude he had originally taken concerning his relations with the Hawley-Moore-Reid interests, but there were some Monday who inclined to the belief that in the interest of harmony he had been prevailed upon to recede from his position. Mr. Yoakum still declines to discuss in any way the reports of disagreements or their settlements.

One of the leading interests in the Rock Island Monday declared that there has been no discussion of the resignation of either Mr. Yoakum or of B. F. Winchell, president of the Chicago, Rock Island & Pacific. Mr. Winchell, who has all along strenuously denied the prevailing rumors, is credited with having said: "I have not resigned and have no present purpose to resign. Mr. Yoakum told me he had not resigned."

It is taken for granted that the retirement of Mr. Yoakum from the "Katy" board and the disposition of his interests would at once remove all grounds for disagreement with the Moore-Reid people and that harmonious relations would at once be restored. In the meantime nothing more is heard of the proposed Hawley holding company, with Mr. Yoakum prominently identified with it.

THANKSGIVING OYSTERS

The Only Oysters

With the Tang of the Sea

We get our oysters straight from the seacoast beds; every mile of the journey under seal. We are registered agents of "The Sealshipt System." Under our contract the oysters are sealed in patented air-tight, germ-proof Sealshipts. The seal is put on AT THE SEASIDE and we break it when the oysters are delivered at our store. "The Sealshipt System" insures our customers oysters that are firm, clean, solid, fresh.

Sealshipt Oysters

Sealed at the Seaside

Sealshipt oysters are radically different from the common oysters shipped in open tubs. Under this old method, which is still in use, the ice is IN THE TUB WITH THE OYSTERS. Fast as the ice melts, the expressman puts in another chunk of RAILROAD ICE. Common oysters, as they are sold, are half liquor. That "liquor" is only the MELTED RAILROAD ICE that has washed the flavor out of the oysters and made them soggy, shapeless, insipid.

Don't be contented with anything less. A pint of Sealshipt oysters is sufficient for an ordinary family, because they are solid meats—no railroad ice "liquor."

We sell Sealshipt oysters from an attractive, cleanly white and blue porcelain Sealshiptcase. No ice or water come into contact with the oysters. Call and see it at our store. At the same time we will be glad to hand you one of our books "Seaside Oyster Dishes," which contains many shore receipts.

Sermon by
CHARLES T. RUSSELL,

Pastor Brooklyn Tabernacle

Weeping All Night

"Weeping May Endure for the night, but Joy Cometh in the Morning. (Psalm xxx 5).

Correspondence Democrat-Sentinel.
Brooklyn, N. Y., Nov. 21.—Pastor Russell, of Brooklyn Tabernacle, preached today to a crowded house from the above text. He said:—

No other book treats the matter of human we and sorrow in the wise, tender, sympathetic, helpful manner of the Bible. It assures us that however cold, heartless and disappointing the world may be and our friends may be, or those from whom we may have expected better things, we have, nevertheless, a God of sympathy—a God of love. No heathen religion knows anything of such a God. With them God's attributes are merely more or less of ferocity. Their gods are to be placated and worshipped from fear of what they otherwise would do to their creatures. The God of the Bible assures us of his love, his sympathy, in all of our distresses—his interest in our affairs and his provision for the ultimate welfare of all those who will come into the attitude of loving righteousness and hating iniquity—the only proper attitude of heart, the only one which he can approve and bless with everlasting life.

A Night of Sorrow and Death.

The Scriptures point out to us what we recognize to be the truth—that the world has been under a pall and blight and curse of death for six thousand years. Appropriately our text describes this period as a dark time of hard, blighting experiences, a night of weeping—of sorrow. In harmony with this figure it declares that "darkness covers the (civilized) earth and gross darkness the heathen."

Not alone does this condition affect those who are in alienation from God through ignorance and superstition and the power of sin, but it affects also those who have accepted the grace of God, who have turned their backs upon sin and who are seeking to walk in the narrow way, in the footsteps of Jesus. Well does the Apostle say, "The whole creation groaneth and travaileth in pain together until now. And not only they, but ourselves also, which have the first-fruits of the Spirit, even we ourselves groan within ourselves, waiting for the adoption; to-wit, the redemption of our Body"—the Body of which Jesus is the Head or Chief and we are symbolical members or an underpriesthood (Romans viii, 22, 23).

There is a difference, however, between the church and the world in this groaning, as suggested by the Apostle's words. The world groans aloud without alleviation, and even its waiting for the manifestation of the sons of God is a waiting in ignorance; for, being out of touch with the Eternal One, they know not of his gracious purposes and arrangements for these are kept secret from all except his sanctified ones. "The secret of the Lord is with them that fear (reverence) him and he will show them his Covenant" (Psalm xxv, 14). These who possess the secret of the Lord "sorrow not as others who have no hope" (1 Thessalonians iv, 12). They "groan inwardly" and wait for the glorification of themselves and all the brethren, members of the symbolical Body of Christ, by participation in the First Resurrection. The hopes of these must be realized first, before the blessing can come to the "groaning creation" in general. The latter are waiting for the manifestation of the sons of God; namely, the Church in glory.

A Light in a Dark Place.

The Bible represents itself as being the candle of the Lord, the lamp of Divine Truth and enlightenment. But it tells us that its light is not for the world—either now or at any time future. Its light is only for those who by faith and obedience unto consecration seek to walk in the footsteps of Jesus. They need the light. God provides it for them. These are represented by the Prophet as saying to the Lord, "Thy Word is a lamp unto my feet, and a light unto my path" (footsteps) (Psalm cxix, 105). This light evidently does not shine far into the future, but enough for each inward step as it becomes due. St. Peter amplifies the same thought. After telling us of the assurance which he himself and his as-

sociates had upon the Mount of Transfiguration when they beheld "the vision" (Matthew xvii, 1-9 of the Lord miraculously transformed and with him Moses and Elijah and heard the voice from heaven; it was forceful to their minds as teaching the coming of our Lord in glory, in due time. Nevertheless, says the Apostle, honoring the Bible above any vision, "We have a more sure word of prophecy; whereunto ye do well that ye take heed, as unto a light that shineth in a dark place, until the day dawn, and the day star arise" (II Peter 1, 9), indicating that the morning is at hand and that the Sun of Righteousness will soon fulfill its mission of blessing all the families of the earth.

But Why Is This Thus?

Why does God permit the reign of sin and death, injustice, unrighteousness, sorrow, trouble, pain, headaches, heartaches, etc.? Why does he not deal with humanity graciously, kindly, lovingly, as a Father—as he deals with the angelic sons of God? Is it just or loving on the part of our Creator to bring forth millions of his creatures under these admittedly unfavorable conditions—beset by weaknesses and sinwardness from their birth and surrounded by others similarly weak, and beset by Satan and his missions—wicked spirits? Is it just that we should thus be in an unequal fight subjected to weaknesses and dying and imperfect conditions on account of the sin of our first parents and then, on the same account, be in danger of an eternity of torture with nine hundred and ninety-nine chances out of a thousand against us?

No, thank God, the thought of eternal torture which came down to us from the dark ages, and which we for a time supposed to be Biblical, we find now is quite unscriptural, when judged in the light of the Bible's own testimony. The eternal torment doctrine assuredly is not of God, not of the Bible, but, as St. Paul declares, one of the "doctrines of devils."

The inheritance of weaknesses, blemishes, sorrows, pain and trouble, to which we were born, is quite sufficient, and, according to the Scriptures, these are all part of death, and all reach their culmination in death, which is the real penalty for sin prescribed by our Creator. The fact that these blemishes still continue with the race proves that their sins are not yet blotted out, and to this agree the Scriptures which point us to the oncoming glorious day of blessing a thousand years long, the Millennium, in which Divine blessing will be bestowed upon every member of Adam's

Advantages of the Fireless Cooker Over the Usual Method

Retain all the natural juices of meats, vegetables, etc.
Renders food more nutritious and palatable.
Requires only about one-fifth the time.
Prevents scorching, drying up or burning.
Never overcooks or spoils the food.
Renders all food much more digestible.
Promotes good health and good temper.
Prevents the commingling of flavors.
Cooks cabbage, onions, etc., entirely without odor.
Gives you leisure for calling, shopping, taking a nap, etc.
Turns Sunday dinners from drudgery to delight.
Prevents worry if husband or guests are late.
Does away with kitchen heat.
Cooks for breakfast over night.
Physicians say "the dyspeptic's best friend."
Fireless Cookers and the art of fireless cooking are old, having been used in Norway and the old world ages ago—the only difference is that our Cooker is built scientifically for all practical purposes.
In operation this wonderful invention is simplicity itself. You simply prepare the food to be cooked in the regular way—place it on the stove and bring it to boil—then immediately transfer to the Cooker, cover tightly, add the insulated pillow covering—drop the lid and let the Cooker do the rest. In a few hours remove the cover and serve the boiling hot—perfectly cooked and with a taste that will prove delightfully surprising.

THE COOKER

Is 24 inches long, 12 inches wide by 12 inches deep, made of kiln dried, specially prepared wood, dovetailed on all corners.

The cabinet is packed with chemically treated mineral wool which retains heat at the highest temperature.

The Cover is pressed steel, perfectly sanitary, and indestructible; it cannot wear out. The lining and Kettle Container is made of heavy seamless enameled tin, airtight and waterproof. Intense cold has absolutely no effect whatever on the contents of the Cooker. A dinner can be put in the Cooker and taken in the open air, on the back porch for example, even if the temperature is 20 degrees below zero, the cooking process will continue just as perfectly and scientifically as if Cooker was in the house.

The Cooker contains a six-quart and also a four-quart enameled pressed steel cooking kettle with special airtight covers.

SERVANT PROBLEM SOLVED

Every woman who has ever
used this Cooker says there is

No Home Complete Without One

POSITIVE HOUSEHOLD NECESSITY

PEOPLE'S PULPIT

(Continued from Page 1.)

Priest of our order. We see a necessity for this, not only as respects our own testings and a thorough proof of our own heart-loyalty to the Lord, but additionally we see a wisdom on God's part in thus preparing a priesthood of the future. The term priest as recognized amongst the Jews was

not merely one who offered sacrifices, although every priest was of necessity a sacrificer. The special mission of the priestly tribe amongst the other tribes was that of instructing, helping, healing, teaching. And so God is preparing a Royal Priesthood for the Millennial Age to bless, to heal, to teach, to uplift all the willing and obedient of humanity.

The royalty of the priesthood signifies that it will no longer be a sacrificing class, for all sacrificing will be at an end. It will be a glorious class, royal, of the divine nature, and representatives with our Lord Jesus of the Divine power. As priests who will have to do with judging and chastening, healing and helping humanity, how much sympathy do we suppose that these royal priests should have? Are they not to be on the Divine plane of glory, "members of the Body" of Messiah, the great Kingly priest after the order of Melchizedek? And of him has not the apostle written that he must be a faithful and merciful high priest, able also to sympathize with the people in their infirmities?

Does he not declare that it was for this reason that our Lord was "touched with a feeling for humanity's infirmities"? And is it not in perfect keeping with this that all those accepted as "members of His body" should have such experiences in this sacrificing time as would demonstrate their loyalty to the Lord and guarantee their deep sympathetic interest in the world, then committed to their care? To such will be committed the work of human restitution, uplift out of sin and death conditions—mental, moral and physical?

The Morning of Joy.

How glad we should be that our Heavenly Father's sympathy for us will provide a "morning of joy" to

be ushered in, in His "due time!" Additionally, He sympathizes with us to the extent that He has given us in advance a message and Revelation and explanation to comfort us, to sustain us in the way! We have already seen that this Revelation is only for those who have the eyes of faith and the ears of faith at the present time. "Blessed are your eyes, for they see; and your ears, for they hear." "He that hath an ear let him hear."

We recognize the wisdom of God in withholding the secret of His plan from the world in general. We recognize that for the world to know the deep things of God at the present time would be injurious rather than helpful to them. It might possibly work an interference with the Divine program. Nevertheless, we are bound to sympathize with the poor groaning

creation in its blindness and ignorance. The poor world knows not why it came into being. In an animal fashion, eating, drinking, etc., it seeks to use the opportunities of present life, and, after a few short years full of trouble, it goes down into the tomb ignorant of the purposes of its creation, and usually considerably enthralled by fear respecting the future beyond the portals of death.

How we may rejoice in spirit as we perceive the length and breadth and height and depth of the Divine program for the future and the blessings which it will bring to this "groaning creation." How we long for the time to come when the church will be made ready through the sufferings of the present time for the glories of the future—the kingdom! No wonder the apostle declares, "He that hath this hope in him purifieth himself even as He (the Lord) is pure" (1 John iii. 3). He is our exemplar, our pattern. We seek to copy Him. Although we can not be like Him in the flesh, we can be like Him in the spirit of our minds and thus be of the character-likeness which the Father will be pleased to honor with a share in the "First Resurrection." By that glorious change we shall be made like Him actually and see Him as He is and share His glory.

The morning of joy, the Millennial Morning, of course, can not be ushered in until the rising of the Sun of Righteousness. Its beams of grace and truth will flood the earth with the light of the knowledge of the glory of God to such a degree that it will drive out, expel, all ignorance, superstition and sin, which have worked such havoc in our race.

But what is this Sun of Righteousness? Whence comes it? The Bible answers the question by telling us that it symbolically represents the

Lord Himself and the elect church of this Gospel age. The Sun of Righteousness is a synonym for the Seed of Abraham, of whom it is written, "In thee shall of the families of the earth be blessed. The mystery hidden for a time from many is the fact that the church is to share with her Lord in every feature of His glorious work, not only in suffering, but also in reigning. Thus we have St. Paul's assurance that the overcomers will be members of the Seed of Abraham (Galatians iii. 29). And we have our Lord's own words that this faithful class will be represented in the Sun of Righteousness, the great Messiah, the great Prophet, Priest, King and Mediator between God and man (Matt. xiii. 43).

"What Manner of Persons?" St. Peter, in viewing the prospects of the church, inquires as to "what manner of persons we ought to be in all manner of holy living and

godliness." He refers to us who know that the present order of things is the reign of sin and death, from which our Lord died to deliver us. What manner of persons ought we to be, who have heard our Lord's invitation to joint heirship in His kingdom and who know that we are now on trial to determine by our voluntary course our worthiness or unworthiness of that glorious position, to which we have been called by God's favor. How paltry, how insignificant do all the affairs of the world appear in comparison to this great prize set before us in the Gospel!

And what should be our attitude toward the world, seeing from this inside standpoint of Divine revelation the real condition of the world and God's sympathy for it? Its ignorance should make us very sympathetic and very much disposed to lend a helping hand of relief in every possible manner. We should be ever ready to remove the scales of blindness from the mental vision of all who give indication of a desire for God—any who seem to be "feeling after God, if haply they might find him" (Acts xvii. 27). Only such will be ready for the kingdom, fit for the Royal Priesthood, every member of which must be "touched with a feeling" for earth's infirmities.

Christmas Presents

Dresden silk is so much liked nowadays that it is even used to cover the backs of hairbrushes. Hand mirrors and hairbrushes with Dresden silk backs are beginning to supersede the

TOILET SET COVERED WITH SILK.
silver backed articles on some women's toilet tables.

Backing a brush or a hand mirror with Dresden silk is really a very simple matter, and any one with deft fingers can manage it. The silk is glued to the wooden backed brush, and gold braid is glued around the edges. A comb and brush tray and a powder box can be covered in the same manner, and the set makes a dainty present for a woman. The Dresden silk pin cushion is shaped a little like a pair of bellows. The sides are of silk covered cardboard, and the cushioned edge holds the pins.

A Pin Case For the Schoolgirl.
A dainty present for the room of a schoolgirl is the ever useful pin case in a form that appeals to her love of decoration.

A small bisque doll head has fastened around its neck two pieces of satin ribbon three inches wide and ten inches long. This is gathered in such a way around the neck of the doll that it appears to be dressed in a long, straight slip of silk.

Between the ribbons are shorter pieces of flannel, as many as are desired. Each piece is featherstitched in the same color as the ribbon, or it may be pinked. Through the flannel is stuck white and black pins, safety pins, colored pins of all sizes, such as are so useful in the adjustment of stocks and belts.

If one knows the color of the room decorations of the girl for whom the pin case is intended it should be made of a harmonizing color.

For the Trouseuse.
Engaged girls will appreciate several of the ribbon holders that are made for keeping in place certain sets of lingerie or table linen. The gift is simple enough, being merely a length of ribbon which in the center has a square of linen covered cardboard embroidered

with the girl's initials sewed to the ribbon. The ends are then put together and a round slide like those used on directorio sashes is made of linen. This slide is drawn about the article that is to be surrounded with the ribbon band.

Cover Hatspins For Christmas.
The latest fad is to cover hatspins. Does that sound strange? It is not, however, for if you possess a plain and unattractive pin and wish to give it the cachet of originality all you have to do is to embroider a tiny disk of black satin or any shade that you prefer with gold thread, put the disk over the head of the pin, tie it tight, and the deed is done. If you had a jeweled pin and the real diamond, or whatever it was, has disappeared, cover a small button in any way you like and paste it into the empty space left by the lost bit of glass. If a hatpin is too small, make a little rosette of gold tissue and run the pin through the middle.

The ways of decorating such pins are really too numerous to mention in detail, but any one may do it and get the best results with the least effort and expense. Indeed, it is not difficult to make.

A Laundry Book.
For the college girl a laundry book is fine. Select a neat rice paper for the leaves and cut the double cover from red paper of a heavy variety, then tie the leaves together with red baby ribbon. Between the leaves of white paper are blue carbon paper slips, so that a duplicate copy is made when one marks off her laundry.

DEMAND DUTY ON ROSIN

It Makes Considerable Difference Whose Ox Is Gored.

Washington, Nov. 23.—Southern producers are demanding a duty of 20 per cent on gum rosin, which has heretofore been admitted free, and the treasury department has decided to give the plan a trial.

Soap manufacturers oppose the imposition of this duty. Southern rosin interests claimed that under a wrong classification in the laws gum rosin, or rosin from abroad, has been admitted free of duty, to the serious loss of the southern trade. The manufacturing interests using rosin sought free admission.
